# What if I Told You....

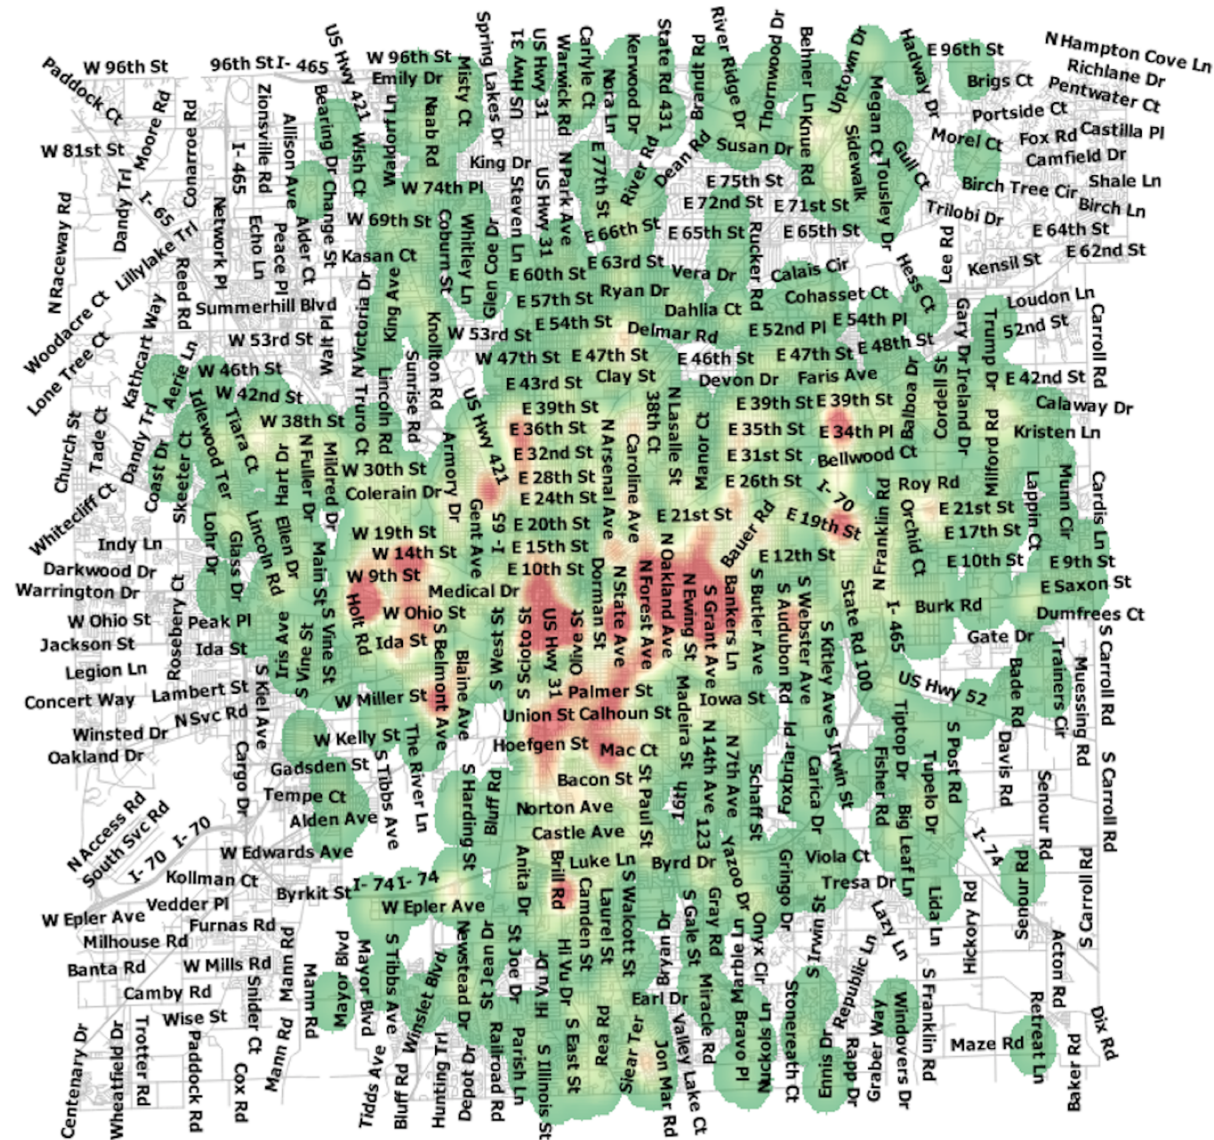

- EMS and Police want the same thing?
- EMS and Police know where the drugs are?
- These agencies can work together to improve our chances in the war on opiates?

*IU Department of Emergency Medicine*

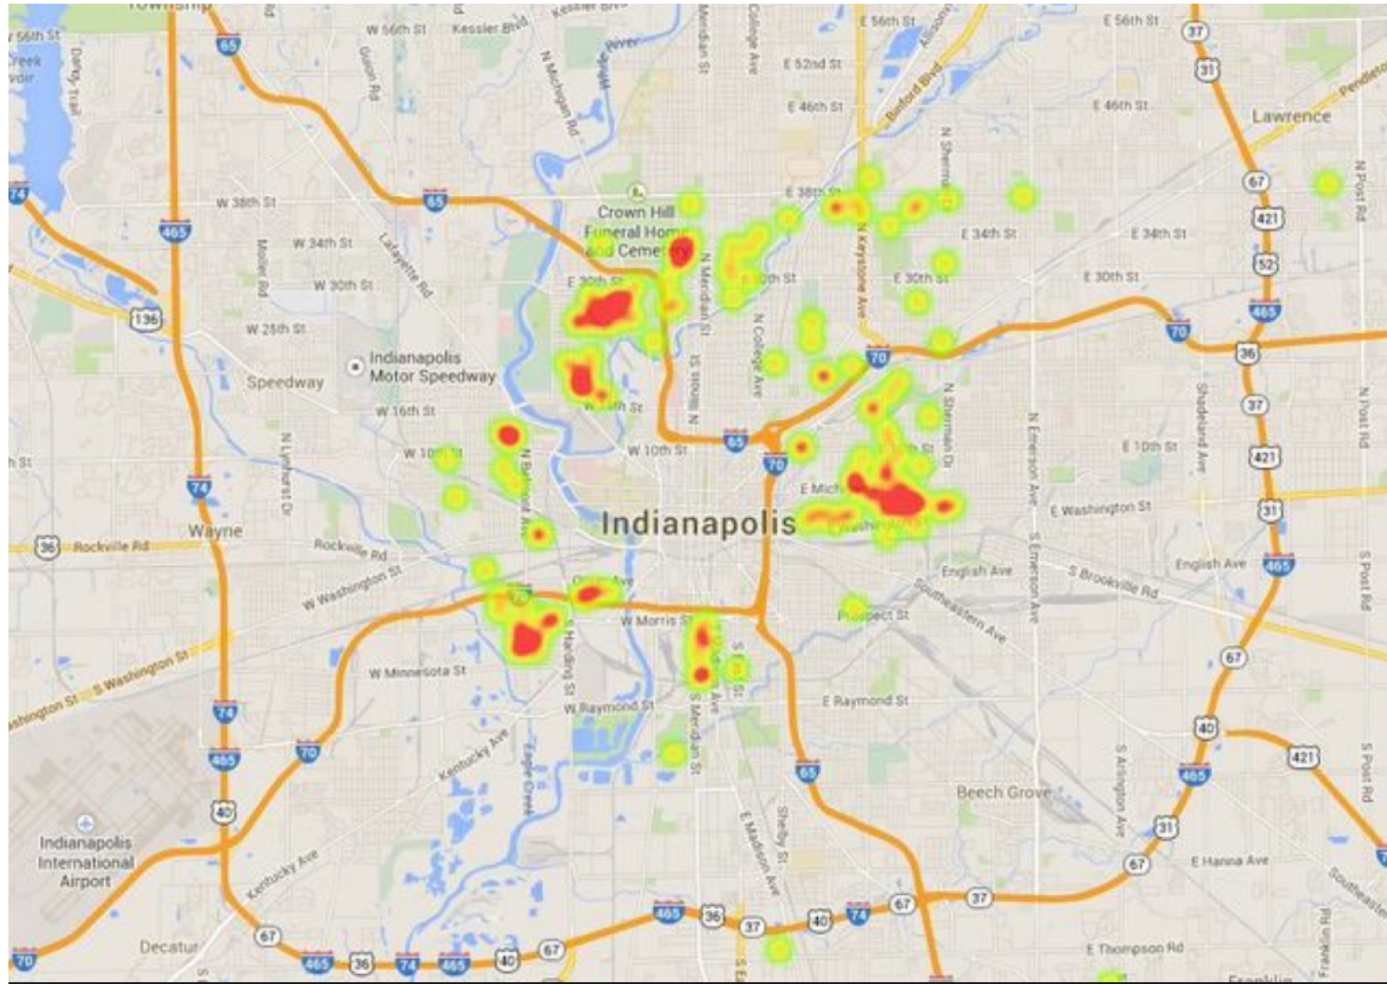

# What EMS Knows

The picture can't be displayed.

# What Police Know

The picture can't be displayed.

# Obvious Synergy

- EMS data is key for syndromic surveillance
  - Lets public safety know when we are seeing a spike in Ods
    - Leads to increased surveillance by police
  - REACTIVE????
- Police data is key for pre-syndromic surveillance
  - Here is the fentanyl, carfentanyl, etc.
  - PROACTIVE!!!

# Who Do I Call?

- Most have an IT guru
  - Chief of IT
  - Local computer geek?
  - You
- Police usually have their cohort
  - Chief of intelligence
  - Fusion center
- Get them together and embrace the possibilities
