

*Correcting Some Existential  
Deficiencies with Better  
Interventional Efficiencies:  
how can we save time and expedite  
better care in resuscitating patients?*

Dustin J Calhoun, MD FAEMS  
Medical Director  
Cincinnati Fire Department  
Associate Professor  
University of Cincinnati

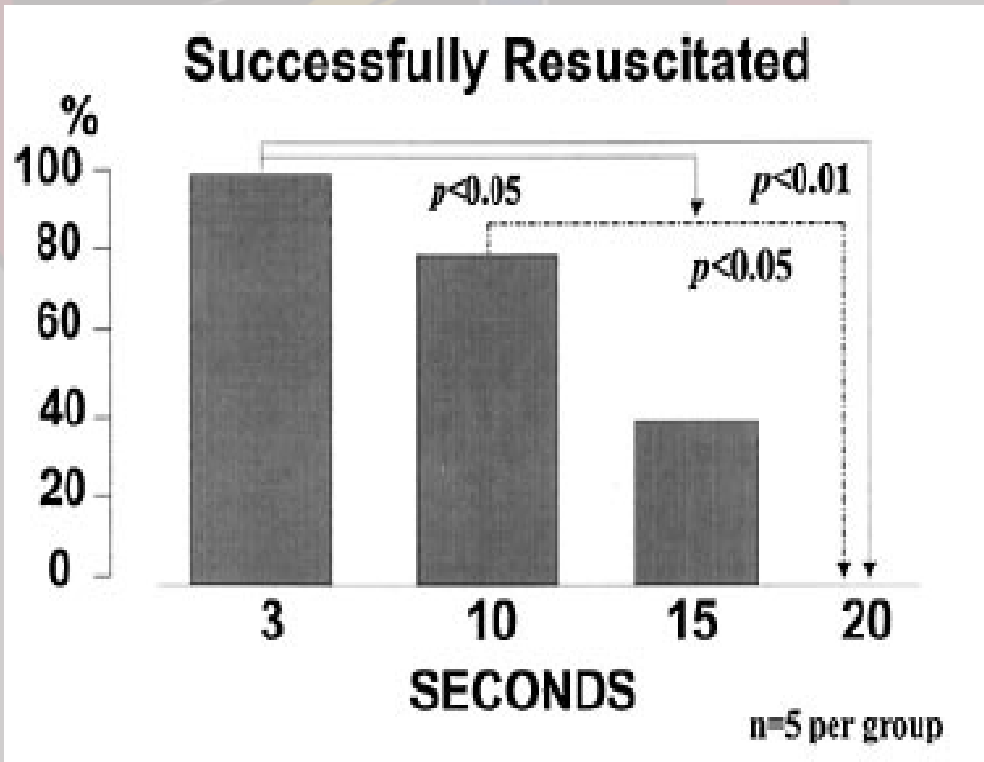

## *What on Earth did that title mean Dr. Pepe?*

- Why should I care about a few seconds?
- Ok, where are the seconds going?
- Well, what can I do about it?

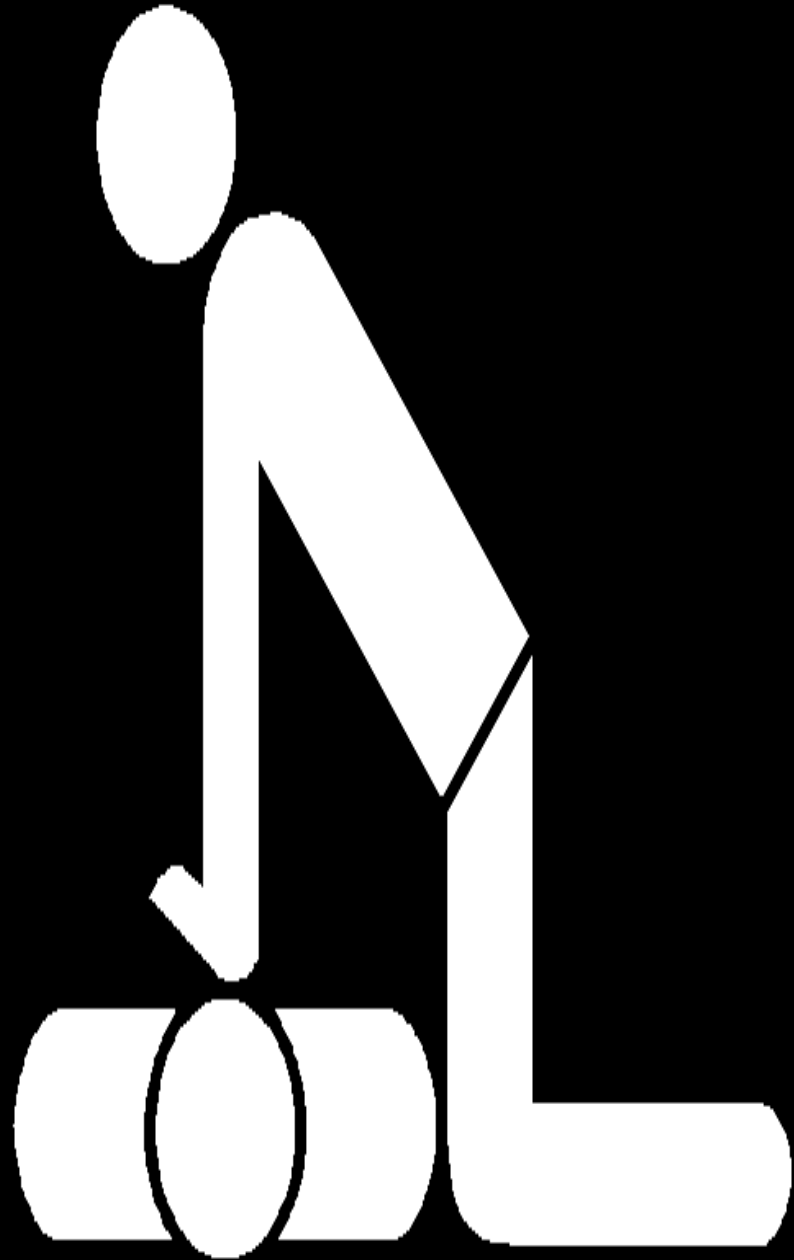

# *Pauses Matter*

# *Why do we pause CPR*

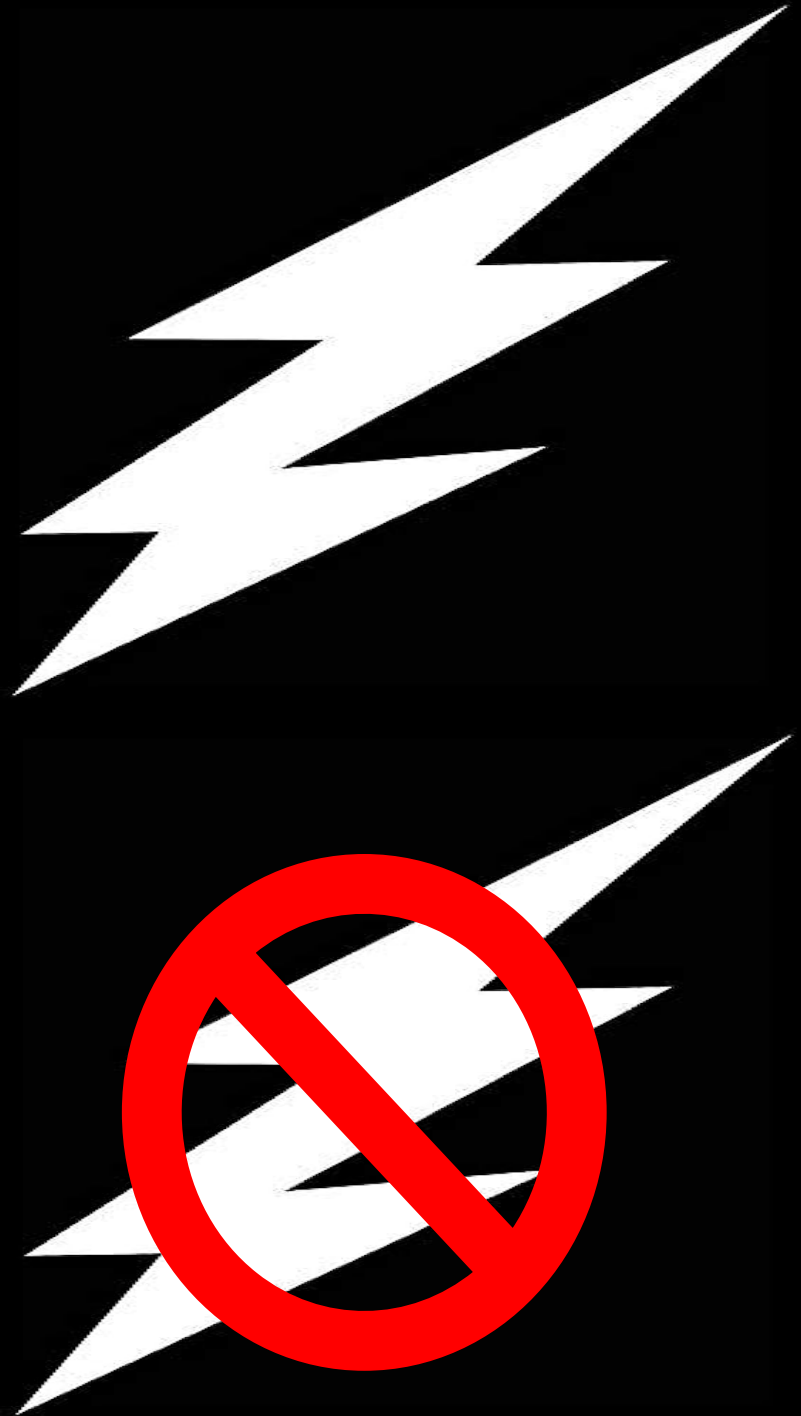

- ***Patient movement***

- Rhythm analysis
- Defibrillation
- Pulse checks
- Change compressors
- Airway management
- Ventilation
- Venous access
