A History of Innovation in EMS Leveraging Telehealth Navigation

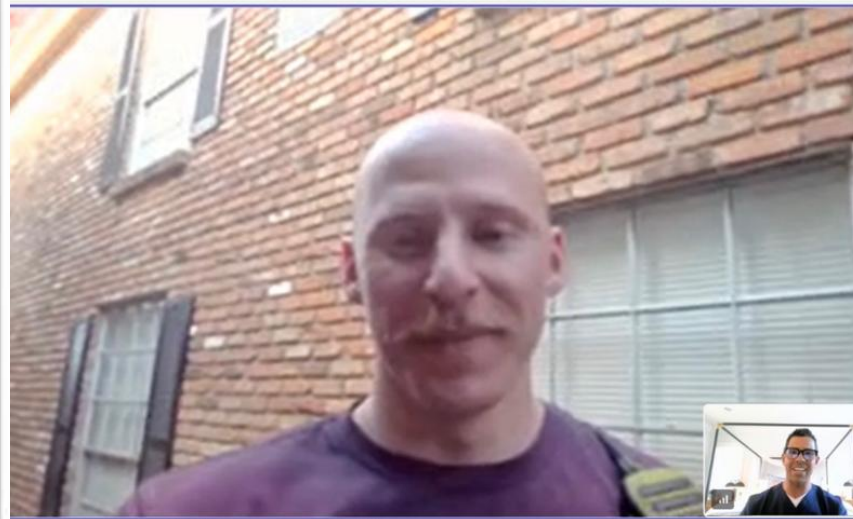

WHAT IS ETHAN HEALTH?

WHAT IS ETHAN HEALTH?

ETHAN Health is a Telehealth and Navigation company connecting Emergency Medical Services with Emergency Physicians, with a goal of providing alternative care and transportation for **non emergent** patients.

Purpose: Provide safe, effective alternatives to EMS transports for **non emergency** conditions, saving valuable EMS resources and improving patient outcomes.

HOW CAN ETHAN HELP EMS?

Real-Time Clinical Support

Quick and Efficient access to a local ER Physician to access patients and guide to a safe disposition.

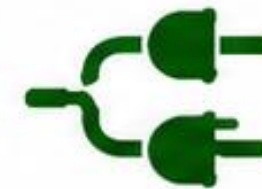

Alternative Disposition Options

Connect patients to Urgent Cares, Freestanding ER's, Emergency Rooms, Behavioral Health Facilities.

Reduce Unnecessary Transports

Decrease ED congestion and focus EMS resources on critical patients who need them most.

Seamless Integration with Current Technology

ETHAN integrates with your existing EMS systems and workflows, including CAD, ePCR, for a smooth and efficient experience.

Improve Unit Hour Utilization

Reduce time on scene and in wall time queues so units return to service faster.

ETHAN IMPACT

60K+
Patients served
by ETHAN
since late 2014

>93%
Success in ambulance
avoidance for low
acuity patients

\$30M+
In ambulance
savings alone
since 2014

44
Minutes saved
per EMS
encounter

CRITICAL RESOURCE
Especially important as the
Houston Fire Department
faces a **firefighter shortage**
of 300 personnel

NATIONAL POTENTIAL
ETHAN could support
30%-35% of **911** ambulances
nationwide – **6.3M+** potential
ETHAN visits per year

HOW ETHAN WORKS

1 Call is Placed

A patient or bystander calls 911 for a medical emergency.

2 EMS Dispatched

If the patient is non-emergent and fits the parameters to use ETHAN, the EMS team launches ETHAN Health.

3 Live Telehealth Consultation

EMS connects with a local ETHAN Emergency Medicine Physician via live video from the scene.

4 Medical Guidance Provided

The ETHAN physician assesses the patient, provides treatment guidance, and recommends next steps.

5 Patient Directed to the Right Care

Patient is transported to the most appropriate destination for their condition by Uber or local cab company.

HOW IT WORKS FROM DISPATCH

1 911 Call Received

Dispatch collects key patient details (location, condition, severity).

2 Non-Emergent Case Identified

No EMS dispatched; call routed for telehealth.

3 Virtual Consultation

Patient connects with a doctor via ETHAN Health on a mobile device.

4 Medical Guidance Provided

Physician advises treatment and next steps.

5 Patient Redirected

Sent to clinic, urgent care, or ER via alternate transport. EMS dispatched if condition escalates.

HOW CAN **ETHAN** MAKE YOU MORE EFFICIENT?

SAVE TIME

Reduce time on scene and get patients the right care, faster.

REDUCE ED TRANSPORTS

Connect non-emergent patients to care without unnecessary ED transport.

IMPROVE PATIENT EXPERIENCE

Provide convenient, high-quality care where patients are, when they need it.

ENHANCE CREW SAFETY

Spend less time on scene and return to service sooner.

SUPPORT CLINICAL DECISION MAKING

Consult with a board-certified emergency medicine physician in real time.

INCREASE SYSTEM CAPACITY

Keep resources available for the next call.

REDUCE WEAR ON EMERGENCY RESOURCES

Reduce strain on EMS crews, avoiding burnout and turnover so your team can stay strong and ready.

SAVE MONEY

Reduce unnecessary ED transports and hospital costs, lowering overall healthcare spending.
